

Roadview, Inc.

Project Director (Full Time)

Roadview, Inc., located in Madison, WI, is seeking a Project Director to oversee mobile data collection client service contracts regarding transportation infrastructure and civil engineering. This individual will apply civil engineering principles to evaluate information to ensure compliance with standardized data processing, system workflow, and quality control methods. Responsibilities will include scheduling, creating budgets, and determining software, hardware, and staffing needs for assigned projects. Must be proficient with Windows and Mac operating systems and MS Excel & Access databases. Position requires a Bachelor's degree in Civil Engineering and three (3) years of experience in the transportation infrastructure mobile data collection field. The three years of experience required must include one year working with ESRI ArcMap/ArcView (GIS) and Applanix POSPac (GPS) software. 8–5, M - F. Send resume by mail to Roadview, Inc., Attn: K. Downing, 4801 Tradewinds Parkway, Madison, WI 53718 or by email to apply@roadview.com. Equal Opportunity Employer.
